Key rules of brainstorming

😊 Stay in topic. 💡 Encourage wild ideas

🕒 Defer judgment. 👂 Listen to others.

🗃️ Go for volume. 👁️ If possible, be visual

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions. **Step-1: Team Gathering, Collaboration and Select the Problem Statement**

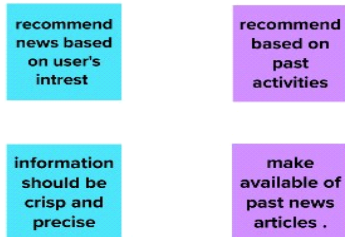

3

Group ideas

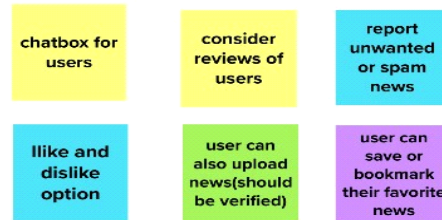

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.
